

# Bathroom

## Cleaning checklist

- ✓ Clean and dust with a damp cloth or microfibre cloth weekly
- ✓ Seal leaks in bathrooms
- ✓ Clean dust on air vent covers
- ✓ Be aware of signs such as condensation on your windows due to lack of air circulation
- ✓ Check for cracks around the bathroom for example in a tile or pipe

## Product and service checklist

- ✓ Use detergents and cleaning products with fewer harsh chemicals and no fragrances
- ✓ Use personal care products such as body wash, hand wash, soap, shampoo and conditioner that are suitable for people with asthma, allergies and sensitive skin
- ✓ Use extractor fans when showering or bathing to reduce the likelihood of mould or mildew growth
- ✓ Clean extractor fan vents regularly
