

Kitchen

Cleaning checklist

- ✓ Clean visible mould – commonly found in fridges and pantries
- ✓ Clean refrigerator door rubber gaskets and drip pans
- ✓ Clean dust on air vent covers

Product and service checklist

- ✓ Use sensitive household cleaning products with fewer harsh chemicals and no fragrances
- ✓ Use dishwashing tablets and detergents with fewer harsh chemicals
- ✓ Use extractor fans and open the window while cooking and washing the dishes to reduce the likelihood of mould or mildew growth
- ✓ Get your air vents and ducts in the kitchen and around the home professionally cleaned
